ZAIN NASEER

BS Software Engineering Student | Python · Web Development · AI Workflow Automation
Chichawatni, Sahiwal, Pakistan | zainnaseer510@gmail.com | +923010744002

PROFESSIONAL SUMMARY

BS Software Engineering student at the University of Agriculture, Faisalabad, who builds practical software projects and explores Python development, web applications, and AI-powered workflow automation. Project work includes a Python desktop business-management application, a Django web application, and n8n workflows that connect services through APIs and webhooks. Seeking a Software Engineering Internship or Junior Software Developer role.

TECHNICAL SKILLS

Programming Languages: Python, C++, JavaScript, PHP, SQL

Web Development: HTML5, CSS3, Django

Databases: MySQL, SQLite

AI & Workflow Automation: n8n workflow automation, API integrations, Webhooks, OpenAI API, Google Gemini, ElevenLabs

Developer Tools & Platforms: Git, GitHub, Visual Studio Code, PythonAnywhere, Netlify, ngrok

Additional: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), Google Drive integrations, Pinecone, Microsoft Office

PROJECTS

GILLUX — Fertilizer Shop Management System | Python, Desktop Application, Database — In Development

- Developing a Python desktop application to help a fertilizer shop manage daily operations, including product and inventory management, customer records, and sales and purchase management.
- Implementing cash book and cash-in-hand tracking, opening stock and opening balances, and credit and debit transaction tracking.
- Building customer invoice and ledger-related functionality with database integration to keep business data organized.

Fine Tech School System — Django Web Application | Python, Django, HTML, CSS, SQLite

- Developed a web application to manage school-related records and registration functionality.
- Worked with Django project structure and database management using SQLite.
- Handled deployment-related setup using PythonAnywhere.

AI-Powered Feedback Automation | n8n, APIs, Webhooks — Personal Project

- Built an n8n workflow that automates feedback-related processes by connecting services through APIs and webhooks.
- Practiced workflow design, service integration, and practical problem-solving.

EXPERIENCE

Engineer — Fine Tech, Chichawatni — Jun 2025 – Aug 2025

- Developed and implemented basic computer and software-related procedures to improve workflow efficiency and support smooth technical operations.

Teacher — Chichawatni — Sep 2023 – Aug 2025

EDUCATION

BS Software Engineering — University of Agriculture, Faisalabad — 2024 – 2028

Relevant Coursework: Object-Oriented Programming, Data Structures and Algorithms, Database Management Systems, Web Development, Operating Systems, Computer Networks, Software Engineering

F.Sc. Medical Sciences — Kips Evening Coaching, Chichawatni — 2021 – 2023

Marks: 862/1100

Matriculation, Science — Govt. Rai Niaz High School, Chichawatni — 2019 – 2021

Marks: 1096/1100

CERTIFICATIONS

- Python Programming
- n8n Automation
